# Sunday Morning Classes

**Ephesians - Wayne Cornwell - Auditorium -**  
This book was not written to rebuke people but instead promotes a healthy image of the church in the minds of its members. It reminds us that we will not live godly lives until we know what we should about Christ and His church. It shows that a strong foundation is made from truth but the building is completed with our daily walk with God. Come enjoy this encouraging study.

**Life of Christ 2 - Paul Lewis - Young Families - Room 115 -** Paul has done an excellent job at building this program and we encourage his efforts. There can be no more appropriate study for any Christian than the life of Christ. This study always holds new insights for the faithful child of God and it gives hope to all. This journey is not one ever to be missed and especially from a gifted teacher such as Paul.

**Let the Bible Speak – Harry Anderson - Room 116 -** "Let the Bible Speak" a class designed to ferret out Bible Truths on a number of topics that crawl through our minds. This class will delve deeply into the topics that plague our society as well as set the foundation for the Church of our Lord. A list of topics, might include, but not be limited to, "Let the Bible Speak: About God," "Sin," "Grace," "Christ," "The Scriptures," "Obedience," "Hearing," "Faith," "Repentance," "Confession," "Baptism," "Worship," and many other topics generated by the teacher and the class. At the very first meeting, the participants

will be asked to write down topics they would like to know what the Bible says about them. Future classes will be generated from this list. This class will continue for a while longer as there are numerous topics they wish to cover.

**Winning over Worry - Bryan Coulter - Room 114 -** The class is based on a book by Bro. Jack Exum entitled "Winning over Worry". Worry is a dangerous weapon of Satan as it weaves its way into the daily pattern of our lives. We will discover to win over worry we need to address pride, fear, doubts, loneliness, suffering and other possessions of our attitudes and efforts. Our focus will be to put a positive attitude to this problem as we all strive to enjoy our Christianity. Please come and visit the class.

**Hope of Heaven - CYP - Robert Paul - Room 108 -** Many people in the world today believe they have a hope of heaven. There are many ideas about heaven in the world. Where is heaven? Who will be there? What will we do when we get there? In this class we will discuss various ideas about heaven and investigate what God's word tells us about heaven. This is an uplifting and important subject for us to discuss and there will lots of class participation and discussion. Please make plans to join us at every opportunity.

**Ladies Class - Betty McClaran & Hazel Evans - Old Fellowship Hall -** This class will be designed around a text entitled "God has a Kingdom for You" by Billie Silvey. This book involves and indebt study of the book of Matthew. Any one of the gospels is always a wonderful study as they tell the wonderful life and sacrificial death of our Savior. We hope all ladies will take part in this study to grow in their knowledge of our Lord Jesus.

# Wednesday Night Classes

**Philippians/Colossians - Cory Patterson - Main Auditorium - General Adult -** Cory has been one of my best students in my Teacher Training course this winter. Not because he needed extensive training but he is just a tremendous student of God's word and life in general. He will lead this class on two excellent books. Philippians guides us to capture the mind of Christ and a spirit of rejoicing. Colossians leads us to a daily life led by an ever present hope in Christ. What an excellent teacher and subject—please be present for this class. You will be blessed.

**Lord Teach Us to Pray - Wayne Cornwell - Room 115/116 -** This will prove to be a unique offering from Wayne. During this class, we will spend considerable time on the study of prayer. The class will look closely at God's word in unique ways to study how we are instructed to pray. The class will challenge differing views. The class will also spend considerable time in prayer. Come enjoy this study.

**Teacher Training I (Fundamentals in Education) - Glenn Garner - Small Auditorium -** Our first class met with tremendous success. Most who started this class continued throughout the quarter. If you have taught,
